ELECTRICAL DISTRIBUTION SOLUTIONS

No business can exist or prosper without a reliable, regular and efficient electrical distribution system, especially with the increasing demands of modern technology, regulations and constant spiralling of energy costs.

ENAD can deliver tailored solutions to the electrical distribution and control needs of business, large or small. ENAD can provide skilled and experienced technicians, that can evaluate facility Heating and Cooling losses, Water infiltration / Damage, and Electrical Connection issues by utilization of high tech IR cameras and software reporting. Reports can be supplied to facility engineering staff for review and project planning.

Past Projects Include:

GRISSOM AIR FORCE BASE - Repair of Electrical Distribution System - ENAD renovated the airfield lighting and control systems for the 14,000-ft runway.

Elephant Butte Dam, NM - ENAD was contracted to replace the old AC/DC distribution system for the Bureau of Reclamation.

Dover Air Force Base, DE - ENAD installed a new 1,200 ampere main breaker and generator at the North SubStation. Also circuit breakers were installed to provide for the output of the transformer and a grounding system.

Business Overview:

Duns: 079238901
Cage: 71VE6
EIN #: 46-2305521
Company Type:
ISBEE, IEE, SBA
